

hexagonal pendant lamp

zürich
brooklyn

x.plusalex.com

A limited edition hand crafted pendant lamp, capturing the character of the manufacturing industry while avoiding its systematic and detached production system.

The fixture's aggregate coloring and feel present the piece as utilitarian while its straightforward design emits a minimalist air. Molded from a custom-made concrete mix the fixture echoes the personality of its place of creation, Brooklyn's industrial sector; an area comprised of cement and brick, production warehouses that outlive the newest trend of its gentrifying neighbors.
